Profile

Full-Stack Developer with over 4 years of experience building scalable web applications using C#, ASP.NET Core, Angular, React, and cloud platforms Azure and AWS. Delivered solutions across health, e-commerce, education, and finance sectors, leveraging agile methodologies to ensure project success.

Skills

- **Core Technologies:** C#, ASP.NET Core, .NET Framework, Angular, React, Knockout.js, SQL
- **Web Development:** HTML5, CSS, JavaScript, TypeScript, Bootstrap, jQuery
- **Databases:** SQL Server, PostgreSQL, MySQL, MongoDB, SQLite, Redis
- **Cloud & DevOps:** Azure (Cosmos DB, Blob Storage, DevOps), AWS, CI/CD Pipelines, GCP, Heroku, Netlify
- **Tools & Methodologies:** Git (GitLab, GitHub), Scrum, Kanban, JIRA, Trello
- **Testing:** NUnit, MSTest, xUnit, Selenium

Experience

Devsinc

July 2023 – Present

Software Engineer II

- Developed and maintained web applications using .NET technologies, collaborating with cross-functional teams to deliver tailored solutions. Ensured adherence to coding standards and agile practices,
- Skillfully refactored and optimized codebase, and created microservices to improved performance.
- Enhanced a feature to automate dates across various divisions, reducing manual entry time for users by 12% using Angular 12, .NET 4.8, and SQL Server.
- Communicated with the clients to understand their requirements and delivered solutions that meet their business needs.
- Implemented SOLID principles in ASP.NET Core, significantly improving code maintainability and reducing defects.
- Developed responsive interfaces with ASP.NET MVC and Angular, enhancing user engagement.
- Mentored junior developers, improving team productivity through guidance and code reviews.

Tech Stack: .NET Framework 4.8, .NET Core 6+, Microservices, SQL Server, Web APIs, .NET 8+, REST APIs, .NET Razor Pages, AngularJS, Angular 12+, Azure DevOps, Azure Service Bus, Angular Material Design, HTML, CSS, JavaScript, TypeScript, Knockout.js, Telerik, Reporting, Elasticsearch, Contentful, Algolia.

Zentech Solutions

September 2021 – June 2023

Full Stack Web Developer

- Developed and maintained software applications using .NET framework, C#, ASP.NET, and Angular, adhering to established coding standards and design patterns like SOLID principles.
- Responsible for maintaining Web APIs and integration of third-party APIs.
- Built a responsive order management system, enhancing processing speed and overall management efficiency by 25% through Angular 14, .NET 6, SQL Server, and Azure.
- Developed an admin portal for cycle store, boosting efficiency and data processing using .NET 6, Angular 16, SQL Server, and Azure.
- Conducted unit and integration testing to ensure software quality and reliability, reducing bug reports by 35%.
- Created a custom tool for merging user preference JSON files, decreasing update-related issues by 15% using .NET 6 and C#.

Tech Stack: C#, .NET Framework, NET Core 6, Web APIs, RESTful APIs, SQL Server, Azure Cosmos DB, Azure Blob Storage, Azure DevOps, AWS, AngularJS, HTML, CSS, Bootstrap, jQuery, Jira, Bitbucket.

Projects

Vatica Health | <https://vaticahealth.com/>

- Optimized by implementing Redis caching and .NET backend performance.
- Enhanced app Angular and improve diagnosis and drug recommendation features, and resolved related bugs.

Sodexo | <https://us.sodexo.com/>

- Developed job management features and fixed bugs on retail system using Blazor and .NET 6.
- Created a new portal to automate job processes and manage data efficiently.

Get Schooled | <https://getschooled.com/>

- Developed and maintained frontend features, resolved bugs, and implemented new enhancements.
- Managed backend tasks, setting up cron jobs on Heroku and Netlify.

Engage2Excel | <https://www.engage2excel.com/>

- Implemented enhancements and fixed bugs in AngularJS and .NET backend.

Education

Bachelors in Computer Science

National University of Computer and Emerging Sciences
